
KARL MAUGHAN *ĀTAAHUA*
5th March – 5th April

Born in 1964, Maughan graduated with a Master of Fine Arts from Elam Art School, University of Auckland in 1987. Both Maughan's parents were keen gardeners. At times, his Father designed gardens for a living and Maughan found he was often sharing his parents love of all things botanical. His passion for the garden motif within his artwork, began in art school, where he painted his Mother's garden. Maughan says; "What I found with flowers and gardens generally is that you get a tableau of things you can play around with and ideas that you can move around. It's kind of gardening but without all the effort."
